Eco-Lite Film

Eco-Lite Film is an Edge Folder Pre-stretch film that stretch to its ultimate break point prior to its final use. No extra energy require to stretch this film during apply. Both side of the film folded during pre-stretch process can create an extra strength force that increase the pallet stability. The folded edge create superior roping effect and reduce waste due to damaged rolls cause by rolls dropped on the floor.

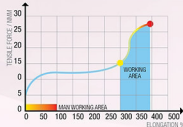

Stretch Film Application

For optimal application, stretch film must stretched near to its ultimate break point in order to create a stiff film to hold a shifting load.

The Comparison Between Conventional Film And Pre-stretch Film

Standard Film

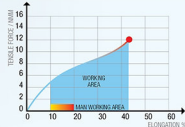

- Strain Hardening
- Breaking Point With Tensile Strength And Elongation At Break

- The operator stretch 15%-20% only
- Edge damage when operator drop on floor
- Soft film
- Thicker film, more material used
- Occupational Risky

Pre-Stretched Film

- Breaking Point With Tensile Strength And Elongation At Break

- Film stretch 200%-250% to its ultimate break point.
- Edge folded, reduce damage
- Stiff film
- Relatively thin film, less material used
- Occupational safer

Eco-Lite Film Product Specification

Eco-lite Hand Roll		
Size	7my x 450mm x 600m	9my x 450mm x 500m
Core	2" id x 470mm x 200gm	2" id x 470mm x 200gm
Net Weight	1.84 kgs +/- 2%	1.94 kgs +/- 2%
Packaging	4 rolls/ ctn x 64 ctns/ Pallet	4 rolls/ ctn x 64 ctns/ pallet

Eco-Lite Machine Roll		
Size	9my x 450mm x 3000m	7my x 450mm x 4000m
Core	3" id x 470mm x 200gm	3" id x 470mm x 12mm(t)
Net Weight	11.40 kgs +/- 2%	13.00 kgs +/- 2%
Packaging	64 rolls/ Pallet	64 rolls /pallet
